163.31777 Public schools interlocal agreement.—

(1) The county and municipalities located within the geographic area of a school district shall enter into an interlocal agreement with the district school board which jointly establishes the specific ways in which the plans and processes of the district school board and the local governments are to be coordinated. Local governments and the district school board in each school district are encouraged to adopt a single interlocal agreement to which all join as parties.

(2) At a minimum, the interlocal agreement must address the following issues:

(a) A process by which each local government and the district school board agree and base their plans on consistent projections of the amount, type, and distribution of population growth and student enrollment. The geographic distribution of jurisdiction-wide growth forecasts is a major objective of the process.

(b) A process to coordinate and share information relating to existing and planned public school facilities, including school renovations and closures, and local government plans for development and redevelopment.

(c) Participation by affected local governments with the district school board in the process of evaluating potential school closures, significant renovations to existing schools, and new school site selection before land acquisition. Local governments shall advise the district school board as to the consistency of the proposed closure, renovation, or new site with the local comprehensive plan, including appropriate circumstances and criteria under which a district school board may request an amendment to the comprehensive plan for school siting.

(d) A process for determining the need for and timing of onsite and offsite improvements to support new, proposed expansion, or redevelopment of existing schools. The process must address identification of the party or parties responsible for the improvements.

(e) A process for the school board to inform the local government regarding the effect of comprehensive plan amendments on school capacity. The capacity reporting must be consistent with laws and rules relating to measurement of school facility capacity and must also identify how the district school board will meet the public school demand based on the facilities work program adopted pursuant to s. [1013.35](#).

(f) Participation of the local governments in the preparation of the annual update to the district school board's 5-year district facilities work program and educational plant survey prepared pursuant to s. [1013.35](#).

(g) A process for determining where and how joint use of either school board or local government facilities can be shared for mutual benefit and efficiency.

(h) A procedure for the resolution of disputes between the district school board and local governments, which may include the dispute resolution processes contained in chapters 164 and 186.

(i) An oversight process, including an opportunity for public participation, for the implementation of the interlocal agreement.
